ENROLLMENT CRITERIA

Please answer all inclusion and exclusion criteria questions:		
INCLUSION CRITERIA	NO	YES
1. Age?	<input type="radio"/>	<input type="radio"/>
2. Time window (between injury and admission)?	<input type="radio"/>	<input type="radio"/>
3. Clinical severity?	<input type="radio"/>	<input type="radio"/>
4. Neuroimaging?	<input type="radio"/>	<input type="radio"/>
5. Hemodynamic stability?	<input type="radio"/>	<input type="radio"/>
6. If female patient: non-childbearing potential or negative pregnancy test?	<input type="radio"/>	<input type="radio"/>
7. Start of investigational treatment possible within time window?	<input type="radio"/>	<input type="radio"/>
8. Informed consent for participation is given?	<input type="radio"/>	<input type="radio"/>
EXCLUSION CRITERIA	NO	YES
1. Type of injury? (e.g. PBI)	<input type="radio"/>	<input type="radio"/>
2. Spinal cord injury?	<input type="radio"/>	<input type="radio"/>
3. Considered unsalvageable (pupils)?	<input type="radio"/>	<input type="radio"/>
4. Major extracranial injuries?	<input type="radio"/>	<input type="radio"/>
5. In coma due to "pure" epidural hematoma	<input type="radio"/>	<input type="radio"/>
6. Body weight?	<input type="radio"/>	<input type="radio"/>
7. Previous major cerebral damage or spinal injury?	<input type="radio"/>	<input type="radio"/>
8. Severe concomitant condition?	<input type="radio"/>	<input type="radio"/>
9. Coma suspected to be primarily due to other causes than head injury (e.g. drug overdose)?	<input type="radio"/>	<input type="radio"/>
10. Participation in other study?	<input type="radio"/>	<input type="radio"/>

Note: this page is only intended to present examples of enrollment criteria commonly employed in TBI studies. They are motivated by clinical, safety and ethical considerations. Clearly, the choice of criteria depends on the aim of the study.
